Inside this issue :

- Baby Jwan
- Breast Cancer Awareness
- Monthly Deliveries

23 years old mother finished 2 years of business administration and then she withdrew from university due to personal issues and she is currently a housewife . whereas her husband works as a mechanic.

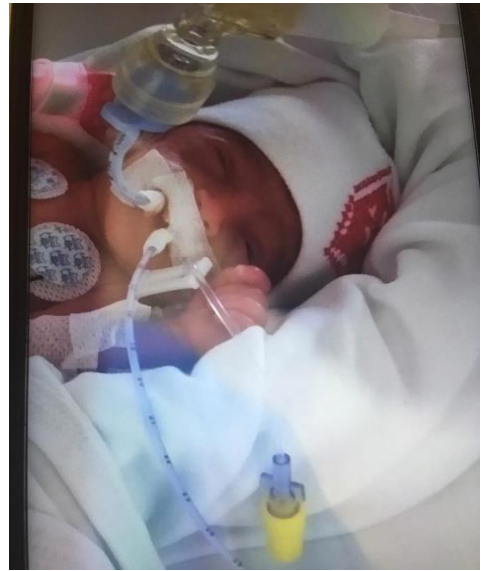

The couple lives in a village surrounding Bethlehem called Nahaleen in a rented house.

At 25 weeks, the mother unexpectedly went into labor. She was terrified, her husband rushed her to Holy Family Hospital where their daughter was delivered on 7th July 2019 weighing only 800 grams.

The baby Girl Jwan had to be placed in the intensive care unit for follow up care, where she spent 94 days growing and recovering with her parents by her side. She was discharged in a good health weighing 2.5 kg.

However, the economic situation of the family did not allow them to afford the expenses of the Delivery. After assessing the case, the family was deemed eligible for financial support. Accordingly, we covered some of the total cost of her Delivery operation, The family committed to pay the remainder amount.

The family are grateful to the high medical quality care and psychological Support that they received at Holy Family Hospital

Breast Cancer Awareness

October is the Breast Cancer Awareness Month, through our over 45 well women clinic an educational session to increase awareness on Menopause and breast cancer in was held in Bethlehem in cooperation with Etihad Al Quds.

Our specialized doctor gave a detailed explanation of the Breast Cancer and ways of early detection and prevention. And also she pointed out the importance of alleviating the symptoms caused by hormonal changes and reducing the risk of complications resulting from this change such as osteoporosis, heart disease and breast cancer. She Also Informed them Regarding the over 45 Clinic Available

The Workshop included live testimonies of a number of women who presented their personal experiences with breast cancer and how to cope and overcome it with determination and courage and periodic medical follow-up.

More than (40) women Attended the workshop .
