## EDITORIAL

“Do not abandon yourselves to despair. We are the Easter people, and Hallelujah is our song”

Being an “Easter person” in the holy land is an extraordinary blessing. Along with this overwhelming grace comes a major responsibility. As Palestinian Christians facing instabilities, conflicts, injustice and war, we should become the “salt and light” of this blessed land to be able to celebrate Easter after this dark Good Friday we are going through .

Easter is the time when death is turned into life, hatred into love and war into peace. Yet, in today’s world, this transformation would not happen unless we learn to recognize Jesus in the poor and the needy and work hard to help them. Patterned after the example of Jesus, this is exactly what Holy Family Hospital has been doing for years now; we recognize the value of each person and through our highly skilled and compassionate staff, we offer quality care for the poorest people in Bethlehem area. Throughout the years, the hospital has broadened its services to include –among others- a diabetic consultation clinic, an over 45 years well women health clinic, and a cardiac clinic. In addition, remote villages are being visited by the hospital’s mobile clinic to provide those who cannot easily reach the hospital with gynecological and pediatric care.

I will be forever honored that I started my career path here; in such a deep-rooted institution. For about two and half years now, I've been gaining rich experience while working with the financial and the administrative team. I've been fascinated by the incredible message the hospital is delivering since the first day. Work here is done in smooth circles where everybody's contributions are integrated to deliver the best possible service for both the mother and the infant.

With the hospital's committed and cooperative financial team, the past few years have witnessed a steady step forward for the accounting department. Among other achievements, previous years have been adjusted and closed to show more reliable figures, the hospital's fixed assets registry has been initiated and regularly updated to ensure better safeguarding of assets, purchases' cycles for each department have been activated to make sure we stay within budget, a VAT exemption for the hospital's purchases was obtained which consequently saved the hospital a significant amount of money, and many changes to the accounting software were made to improve both its efficiency and effectiveness.

Finally, I would like to seize this opportunity to thank the Order of Malta and our friends and donors, because of whose presence we dare to dream; for we believe that with your generous contributions and our dedicated work, we ensure that there will always be "a place in the inn for everyone".

## April's Activity

### THANK YOU!!

We would like to thank the visit of Ms. Maeve Dweyr , Ms. Kathryn Mac-Quillan and Professor Edna from Ireland to our Hospital to support all our nurses , where they all play a substantial role in the success of our Hospital .

And Ms. Cabrinni Flynn a Midwife Nurse left the hospital after almost a month of voluntary work in the Operation room department. The main objective of her visit was as in previous visits to work alongside the nurses in the operating room and review the nursing practices and standards.

Their experience, observing and teaching skills were of much value in developing midwifery performance in Palestine.

The Management committee would like to use this opportunity to ask our team to continue their dedication to the Holy Family Hospital in order to move on to higher levels of excellence by providing better-quality care for the mothers and infants in Bethlehem area

## Holy Family Hospital Bethlehem Participated in the Career Day at Bethlehem University

Career Day was held at Bethlehem University on the 30<sup>th</sup> April 2015. It has several valuable benefits to the employers and the students as well. First and foremost, it provides students with an up-close and personal view of a wide variety of jobs, so a lot of undergraduates participate in order to gain insight into the variety of professions and diverse career paths. Therefore, Holy Family Hospital introduced the Human resources department representative Ms. Amanda Mukarker in order to target students for employment based on-the-spot, short, informal "interviews". It was an excellent opportunity to choose the most and best qualified students.
