Activity Report 3

Detailed Statistic

Al Rashaydeh is a Palestinian village located in the south of Bethlehem with a 1453 inhabitant. This village is threatened with political instability due to different land divisions between areas A,B and C. There are no health facilities available in the village except clinic from Palestinian Ministry of Health and our Mobile Unit visiting them once a week every Thursday.

Designed by Mrs. Rawan Hazboun Bazazo

This health day arranged for women aged between 12 and above starting from adolescence through menopausal age. More than 100 women benefited from the services provided about Breast examination for early detection of breast cancer, antenatal care, post-delivery care, baby care, first aid care for mother and child, menopause care and adolescence. Easy and simple materials were used to increase their knowledge in the related issues.

A special concern was made to encourage stopping the bad cultural habits such as salting the newborns, and exposing newborns to sun light...etc.

Some activities include measuring Blood pressure, Weight, glucose and distribution of Nutritive food, Medications and Clothing's donated from several donors.

The day was a great success for the two partners, for the people who prepared for it and for the people who benefited from it, it was well obvious to us the remarkable satisfaction of the people attending it, listening patiently and their happiness that there are people thinking about them.

ACTIVITY REPORT

"Hope is a powerful motivation for Charity"
