Where there is always a place in the inn for all

Volume 21, issue 10

When blessings, commitment, and hard work join, the result, will be securing high quality medical care to patients and safety of staff. This exactly what happened this month, three symptomatic woman arrived at the Triage Area of Holy Family Hospital and were diagnosed by the Nurse to be possible infected with COVID19. Full protection was taken while receiving full medical care at the hospital and a swab were taken during their admission that resulted to be positive to COVID19. One additional case was already diagnosed with COVID 19 before admission to the hospital and the patient informed the staff at the entrance. Only one staff among those who provided the needed medical care to these women caught the infection.

Another month passed over hiding behind the walls of Holy Family Hospital, little stories and moments that will change and affect our life for ever.

A total of 372 babies were born in October and 30 babies were admitted to the Neonatal Intensive Care Unit. 33 were discharged from the Neonatal Intensive Care Unit and joined their family in good health.

*Prayers are always needed to keep our patients and
staff safe*

Remas & Renas

Being a parent of multiples is a job that requires a strong person with a strong conviction to get through each phase. One of those phases that many twin parents go through after giving birth is the Neonatal Intensive Care Unit. This is often an unfamiliar place for many parents, full of alarm, worries and uncertainty.

“Congratulations, you are pregnant with twins”, So much Emotion hearing that. Hayat, 25 years old from Bethlehem a Housewife holding a BA Accounting, married since 2015. Her husband, Amar, a Taxi driver, they have one boy and a girl who were born previously at Holy Family Hospital.

Hayat received all the prenatal check-ups and delivered at the governmental hospital due to financial issues.

On September 29, 2020 at 31 weeks of pregnancy Hayat Gave birth to her twin girls Renas and Remas. Renas weighed 1.425 kg, and Remas Weighed 1.640 kg, both needed Intensive care and as agreed between the Governmental Hospital and Holy Family Hospital. All premature below the 32weeks requiring intensive care are transferred to Holy Family Hospital Intensive care unit since this is the only high specialized unit capable of treating these little premature.

On October 29th, 2020 both were discharged in good health.

“Holy Family Hospital ‘s Neonatal Department team didn’t hesitate for a moment to provide great medical care to save the life of my twins especially during this hard time and supported us psychologically and financially which helped us overcome this hard period”.

No word can describe the endless happiness of a mother leaving the hospital in good health condition carrying her baby in her arms, ready and independent to give him the best care

Continuous Education

Certified Health Care Quality Practitioners

As part of our Continuous educational program inside the hospital, two staff enrolled in Health care certified quality practitioner course which is designed to provide participants with required knowledge and skills to lead continuous quality improvement and patient safety programs.

We would like to express our Gratitude and thankfulness to the Catholic Relief Services / USAID Emergency Response who worked hard and dedicated all their time to make this course possible and successful one.

New Resident Doctor joined HFH Medical Team

Dr. Ibrahim Jeries Joined the Residency Program through the Palestinian medical council at Holy Family Hospital on 1st October 2020. Dr. Ibrahim is Specialising in Obstetric Gynaecology and he will train for 4 years and 9 months out of the 5 required years.

Dr. Jeries graduated from College de frères in Bethlehem and received his Degree in Medicine from Al Najah National University in Nablus/ Palestine.

We are glad to have you within our Team

Update regarding the Current Resident

Doctors

Dr. Hamad & Dr Rishmawi who finished their 1st year of training at Holy Family Hospital Specialising in Obstetric Gynaecology succeeded in their 1st year exam from the first Trial

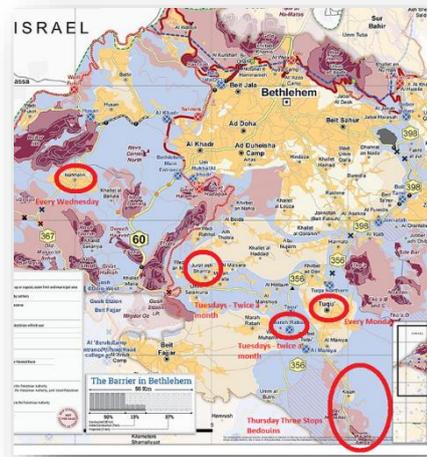

Congratulations, we wish you continuous success

Outreach Mobile Clinic

On October 5th, the outreach mobile clinic is back to its normal operation after one month of stop-off.

Upon the request of The Ministry of Health one more village was added to our Outreach program for Tuesdays Visit. So the clinic runs every other week between Joret Alshama and the new village Marah Rabah. And the other days of operations remains the same for Monday Tuqu' village, Wednesday Nehalen Village and Thursday with three stops in the Bedouins Areas.

We hope to be able to continue running the Outreach Program in the coming months especially that winter and COVID19 pandemic will be challenging.

*Our Success
and accomplishments are results of your generous and endless donations*

Baby Abrar

If my daughter could speak, she would have said, 'All respect to all the love and care you have given me, I felt that I'm part of the family of Holy Family Hospital'

Shatha, 24-Year Old Housewife, got married in 2019 to Nader who is a Construction worker. On January 1st, 2020 she gave birth to her 1st baby girl Mayar.

At 29 weeks, Shatha unfortunately went into labour. She was terrified, her husband took her to Holy Family Hospital where

their daughter was born on 20th September 2020

weighing 1.200 kilogram. On 29th October baby Abrar was Discharged in good health weighing 1.960 kilogram.

"I feel that I passed on from sadness, fear and anxiety to the joy, happiness and satisfaction.

Hospital Staff Giving Birth at HFH

Ahlam Fawadleh, Accountant at the Administration Department gave birth to her third baby girl on Oct 7th, 2020 at Holy Family Hospital.

Heavily father,

We thank you for the gift of life and for bringing these babies safely into this world. May you bless them and keep them, helping them to grow loving, strong and heavenly in Your love.
