Monthly Deliveries

We never give up hope, although this pandemic didn't end, 345 babies were born in good health during the first 31 days of 2021. A new year just started bringing with it new hope, new life, new challenges that we will for sure overpass; this is Bethlehem that is blessed with Jesus birth, the faith of its people and the support of all of our donors who belief in our mission makes everything possible. We are estimating to provide at least 4500 women with a safe delivery at our hospital, to provide a minimum of 26 thousand consultations, caring for around 450 neonates at our unique Neonatal Intensive Care Unit. This is a big challenge but together we will make it possible.

"Thank you God for all Your blessings to our team. For the strength you give us each day and for all the people around us who make things possible at our hospital"
