Monthly Deliveries

Statistics

This month we celebrated the 90000th delivery since the opening of the hospital in 1990, these 31 years were packed with plenty of amazing tales that we'll never forget, all reminding us that parents and siblings can be superheroes and babies are truly a miracle, they touch our heart like nothing else can.

BABY MARIA

"At week 29 of my pregnancy, the doctor decided that I must be admitted to the hospital for observation at the High Dependency Unit since my pregnancy is at risk"

Serena described, "Staying at a hospital can be very stressful especially being away from your family and home, adding to it a pregnancy that is at risk. But during my three weeks of stay at the High Dependency Unit of Holy Family Hospital things were totally different; I got to know all the staff, I've became part of their daily lives, I felt as being cared by my family. I have witnessed

the effort, attention and care they give with love to both mothers and babies. I was overwhelmed with their care that helped me overcome this hard period".

"And finally at week 32 of pregnancy I gave birth to my baby girl Maria, weighing 1.930 kg. It seems that Baby Maria adored the care the staff gave to her mother and decided to stay three weeks at the Neonatal Intensive Care Unit, she also became part of NICU Team. On April 19th 2021 she was discharged in a good health".

Serena would like to thank Dr. Abu Farha for everything he has done beginning from the checkups to Delivery.

"A big thank you for the team of Holy Family Hospital for everything they have done for both of us"

90,000TH DELIVERY

On May 30th 2021 at 9:00 am Holy Family Hospital Celebrated the 90000th Delivery since 1990.

Baby Wateen was born for a Family from BeitJala married since 2012, to join her two sisters; Joury 6 years and Jasmine 3 years old, who were also born at Holy Family Hospital.

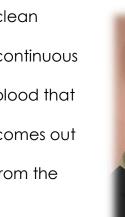

On May 30th 2021, at 9:00 AM, Their special baby girl "Wateen" arrived, weighing 4.10 kg in good health.

"Wateen is an Arabic name that refers to the main artery that feeds the body with pure

clean continuous blood that comes out from the

heart"

"I was willing to have a baby boy, but baby Wateen was born. The first moment I saw her I noted that she is different than her sisters, her eyes were opened and she was looking at me making

me feel as if she is the artery of life, she is my heart's artery providing life to all of us"

ST. GEORGE'S DAY

The Saint George's Monastery is an Eastern Orthodox Monastery in AL Khader village in Bethlehem District. The village of Al-Khader is named after Saint George who in Arab

culture is known as "al-Khader."

According to local tradition, Saint George was imprisoned in the town of al-Khader where the current Monastery of St. George stands. The chains holding him were relics that were said to hold healing power.

St. George's Day is celebrated on May 6th every year, Muslims and Christians celebrates this day all together. This is a very special day in Bethlehem. On Thursday May 6th at 6:45am baby George was born and is named after Saint George.

"I would like to thank Dr. AbuFarah for his support and care during my nine months of pregnancy and for his great support during the delivery, you are a great doctor"

Holy Family Hospital Wishes you luck and success little George.

LIFE IS A GIFT NOT A GUARANTEE. WE PRAY FOR ALL THE BABIES & FAMILIES AT THE NICU HOPING ALL OUR BABIES GO HOME AS SOON AS POSSIBLE AND AS HEALTHY AS POSSIBLE."

PARENTING MULTIPLE

Maram and Raed have two girls; Gracella and Lina who were previously born at Holy Family Hospital.

"This Time the situation is different, I am pregnant with twins. The risk of preterm delivery is very high and I was very worried of the outcome of having a preterm babies, and also very worried of the cost of having twin babies at an intensive care unit".

"I followed my pregnancy at the outpatient clinic of Holy Family Hospital and at week 38 of my pregnancy I went into labor".

"I was really worried but at the same time I had total confidence in the medical team of Holy Family Hospital, they made me feel like I was this really strong, amazing, warrior mom. They taught me how to trust in my body—that it knew what it was doing, to trust in the process of giving birth—that this has happened successfully before (many, many, many times), and to trust in them—that they knew what they were doing and that they had all sorts procedures of and tools and strategies in place should we need them".

"The Midwives who were in the delivery room brought a sense of peace, calm and positivity to the room, they were very supportive. The Neonatal Intensive Care Unit Staff were always there for my Michael and Ayla, giving them lots of attention. It was kind, caring, compassionate environment"

"Twins Are miracles who come in pairs"

No words can describe the endless happiness of a mother leaving the hospital in good health condition carrying her baby in her arms, ready and independent to give him the best care

HOSPITAL STAFF GIVING BIRTH

Our Staff Nurse, Raghda AlYateem, gave birth to her second baby girl "Liron" on May 27th 2021. Raghda is a Staff Nurse who joined the team of the Operating Theatre since 2016.

Congratulations on the birth of your precious child, may she will be happy, and make a lifetime of incredible memories with you.

Congratulations!

GIFT FROM GOD

"A year ago, I gave birth to Twin babies, John and Nora, but suddenly after few months I discover that I am pregnant again. I was very happy and considered this baby a gift from God but at the same time I am very worried since suddenly our family got bigger but at the same time my husband lost his job due to this pandemic, he used to work at a souvenir shop" Lina described.

"I am sure that baby Adam is a gift from our Lord and

he will help us overcome the difficulties we are facing now due to this Pandemic, and I hope that the tourism sector will return back soon and my husband can return to his work"
