Statistics

**To volunteer** (verb): to do something, esp. for other people or for an organization, voluntarily and without being forced or paid to do so.

Volunteering is an incredible opportunity to learn about new cultures and countries, while working with local communities to help make a meaningful impact.

Here are 8 reasons to volunteer:

- 1) It's good for mental health.
- 2) It improves your employability.
- 3) You will acquire new skills.

Volunteering abroad allows you to acquire new skills,

- 4) You will gain hands-on experience.
- 5) You will have an impact.
- 6) You will help people empower themselves.
- 7) You will travel responsibly.
- 8) You will make meaningful connections.

Every year, the Holy Family Hospital in Bethlehem is able to accommodate around twenty volunteers. Coming from the medical field (doctor, nurse, midwife, etc.) or from more general fields (management, project management, communication, maintenance) they put all their professional and human skills at the disposal of the neediest patients from these countries and these very poor regions.

#### **HIBA'S STORY**

Hiba is a 28-year-old housewife.

She holds a BA degree but stays home to take care of her young daughter.

Hiba gave birth to her first daughter at the Holy Family Hospital and when she got pregnant of her second child, she decided to come back again to this hospital.

She said: "I was really scared because our financial situation is not that great, and we won't be able to afford the medical expenses. However, I did not want to give

birth at any other hospital, so I came to your hospital and visited the Social Worker department. Our visit was great and I felt safe after talking with Ms. Mary Maoh, the social worker. She treated us with respect and dignity, and she was able to help me overcome my worries. This hospital treated me with respect and made me feel safe as I was at my own home. My experience this time was the same. I really want to thank you for all the support and great service you provide".

Hiba gave to her baby boy on October 10<sup>th</sup>, through a Caesarean delivery. The baby weighted 3490 grams and after few days both, Hiba and her new baby boy, left the hospital in good health.

"My new born baby and I are well because of your fantastic medical and social service. Thank you from the bottom of my heart"

#### THE LIGHT OF JOY

"From the darkness of fear to the light of happiness and joy", these were the words of Haya.

"I didn't know anything about the Holy Family Hospital and this made me worried and scared.

I used to live in the United States but got married about a year ago and my husband is from Beit Sahour.

We decided to live here.

When I got pregnant, I didn't know if it was better to return to the United States to give birth or to stay here.

My husband and I decided to stay. We also decided to go to the Holy Family Hospital since we heard a lot of

positive feedback about the medical and psychological support. We were told that this is the best maternity hospital in the region".

On October 5<sup>th</sup>, Haya was feeling delivery pain, so her husband and she went to the hospital, where they found a very kind and supportive medical staff.

Haya was amazed by the high level of professionalism and responsibility both at the ER and delivery room.

"I felt safe because both the doctor and medical team were extremely supportive. My experience at the maternity department was good. Despite the pain I had, I was

happy and anxious to receive my baby. My baby girl Jouli was here. Her voice gave me courage and hope in life. She is a beautiful and healthy baby because of your great work and medical service."

Haya gave birth on October 5th, 2022 through natural delivery. The baby weighted 3270 grams.

"I wish the hospital to grow and expand to become one of the largest and most important hospitals that provide care to pregnant mothers and their babies in Palestine. I really appreciate all your work".

### HOLY FAMILY HOSPITAL TRIP

On the 13<sup>th</sup> and the 26<sup>th</sup> of October, some employees of the Holy Family Hospital took part to the annual staff trip, which this year was in Jericho.

The workers, coming from every hospital's department, together with the Italian volunteers, spent their time playing games that had been organized by some staff members and after a delicious barbecue, these special days ended with a visit to the Mount of Temptations, reachable thanks to the funicular.

#### GLOBAL HANDWASHING DAY

October 15 is Global Handwashing Day, a global advocacy day dedicated to increasing awareness and understanding about the importance of handwashing with soap as an effective and affordable way to prevent diseases and save lives.

This year the Holy Family Hospital, especially after the difficult years of Covid, decided to focus on the importance of washing hands.

The doctors of the Infection Department organized activities aimed at raising awareness of the importance of clean hands, through games that gave hospital staff and patients the basic notions, like: how long do you have to wash your hands, when to use water and soap and when the detergent...

#### **GROUP VISIT**

During the month of October, the Holy Family Hospital received many visits from groups coming from all over the world, but united by the interest in seeing this structure and the hard work that is done every day, within its ancient walls.

On the 21st, the Holy Family Hospital was visited by Mr. Jakub Slosarek, Head of the Representative Office of the Czech Republic in Ramallah, and Mrs. Anna Moravkova.

Their visit through every department, which was also joined by Mrs. Michelle Bowe and Mrs. Caroline Herrmann, ended at the NICU department.

Especially, their attention was focusing on the new scanners, which were donated to the Holy Family Hospital thanks to a donation of Mr. Slosarek.

Through these new items, doctors and nurses will be able to check the health conditions of the newborns in a better, most detailed and reliable way.

During the month of October, the Holy Family Hospital was also visited by a couple of pilgrims' groups, who belong to the Order of Malta, coming from the United States of America.

Both these groups were really curious to see the great and efficient work of the hospital staff, which is committed every day to treat every patient in the best way and to know the reality of the Holy Family Hospital: the only Order of Malta's hospital in the Holy Land!
