Where there is always a place in the inn for all

Volume 24, issue 3

March passed at lightning speed.

This month will have been a very strong month spiritually in the Holy Land. It corresponds to four weeks of Lent for the Christian communities and marks the beginning of Ramadan for our Muslim comrades.

It was also an important month for the hospital, which received many visits as part of its license renewal.

But March is also for everyone the return of spring, of the sun and of fine weather. An awakening of nature that allows us to contemplate the Work of the Creator, even if everyone here at the hospital is well placed to live the mystery of Life on a daily basis.

Finally, the month of March with the various events helped to strengthen the ties that unite the staff of the Holy Family Hospital. Employees who really form a family rich in differences from each other.

Baby Alan

Mirna and Karam, after their marriage, dreamed that their first children would be a girl. When Mirna became pregnant, they were waiting anxiously to find out the gender of the baby. Their joy was indescribable that their child was coming to change their lives, to take them to the stage of motherhood and fatherhood.

"We went to the Holy Family Hospital, as it is a hospital with a good reputation and its services are distinguished. As parents, we wanted to go to the best hospital to provide the best for our child."

"On 03/23/2023, my baby girl decided to come. When I felt the labor pain, I went to the Holy Family hospital; placed all my pain in the hands of the Lord. I trusted that the Lord was the one who led me to be part of your family. So I put my trust in you and relied on the Lord."

My baby Alan was born in a good health, weighing 3.030 kilogram .

As Karam Described "An indescribable feeling when I held her in my arms, I felt so much appreciation for my wife how wonderful and given she is to be able to bear all these pains to give birth to our baby girl.

"Wonderful job Jesus is doing through Holy Family Hospital. We thank God of having our babies delivered at Holy Family Hospital".

MARCH ACTIVITY

Holy Family Hospital team Participated in the Palestine Marathon – Run For Peace on 10th March 2023.

MOTHER'S DAY

Mother's day is a special day and occasion celebrated across the world in most families. That's why, in Holy Family Hospital this is the day when we celebrate the motherhood and the maternal bonds relationship.

We wish all mothers around the world and especially those who gave birth at Holy Family Hospital a blessed and happy mother's day!

IFTAR DINNER

On 30th March 2023, Holy Family Hospital held a Ramadan Iftar for their employees.

Mr. Gilles Normand welcomed the employees and congratulated them. Ramadan Iftar dinner is one of the Hospital's Annual Events that are held to strengthen the Employees relationships. The Hospital's Hope to hold another gathering events in the future.

In addition, the Palestinian Civil Defense- Bethlehem chose Our Cleaning Department to honor the mothers working in the cleaning Department and give them small Gift. We Would like to thank Them to chose our Hospital. We are really Appreciate it. The CEO points out that the hospital is not only a medical staff, but there are also people who have a fundamental role in the continuity of work in the hospital, people we are proud to talk about today because they are part of the success of the Holy Family Hospital.

FARWELL

On March 31st 2023 we said Goodbye to one of our Staff Neonatal Nurse who joined our team in 1992.

"I will always remember the team whom I spent time with and I am so grateful that I had the chance to be part of them , I can't Forget how the hospital helped me to upgrade my skills."

"We wish you life full of HAPPINESS and GOOD LUCK"

BABY TEYA

A family from Beit Jala were expecting the birth of their First Child.

On 25 March 2023, Dina went into labor and her husband drove her to Holy Family Hospital where she gave birth to her first baby Girl "Teya" at 34 weeks, weighing 2200 Grams. Unfortunately, she needed to stay in our Neonatal Intensive Care unit.

I'm not sure I know how to describe how I felt when I first

saw our baby Girl. Everyone talks about this euphoric moment in which the mother is overcome with love, I think I felt amazement at seeing this perfect little baby that I had so quickly and confidently brought into the world.

Nakhleh said "I wish I could share the pain and relieve it, but her doctor let my wife feel so safe that comforted me for my wife and my child.

After six days Teya was discharged back home in a good health.

As the parents described "We know that quality care means the best care possible for you and for your needs. This Is what we strive to deliver to every woman everyday at every single moment, this is what we call medical Care".

Naseem's Parents commented, "From the first sight I can say you came at the right moment to lighten our life and fill our hearts with love and care"
