Where there is always a place in the inn for all

Volume 24, issue 4

A very rich month in the Holy Land under the sign of God.

This year, the month of April is a month of celebration for the Jewish, Muslim and Christian religions.

Pessah is a major holiday in the Jewish religion, and this year, Pessah took place from March 28 to April 4, 2021.

At the same time, our Muslim colleagues were fasting for Ramadan. The month of Ramadan is a month dedicated to meditation and prayer during which Muslims must observe a period of fasting, from dawn to sunset. It ended on the evening of April 20.

However, the most important event of this month for our hospital is the celebration of Easter, the resurrection of our Lord Jesus-Christ.

In addition, how lucky we were to be able to celebrate this extraordinary moment according to Latin or Orthodox rites. Just like for Christmas, we were twice overwhelmed with the good news: he is risen, he is truly risen!

Yes, Christ is risen, he is truly risen and we are witnesses.

Holy Family Hospital is truly a family hospital

The month of April is a blessed month with the resurrection of the Lord Christ, whose light illuminated it for us. Easter also brings peace, love and blessing. It also give every mother absolute happiness with the birth of her children. God blessed four employees of the Holy Family Hospital with the birth of their children, so that they see the light with the resurrection of Christ.

Rana, the wife of Mike, who is one of the employees of the maintenance department since 2013, came to give birth of her third child, as she is the mother of two girls who had already been born at the Holy Family Hospital, where Rana says, "I found your care and attention every time I go through the experience of giving birth to my children, so you will always remain my first choice, I feel with my psychological satisfaction with you, all the staff work as a family where you consider every mother a part of this family.

I did not hesitate for a moment to follow up on my pregnancy and the birth of my children here. I always feel safe in my heart with you and with the doctor who increased my confidence in this institution, Dr. Salameh Qumsieh, who was always present for any inquiries and assistance. This confidence in all of you made me put my life and my child's life in your hands.

On 03/04/2023, Rana gave birth to her baby boy "Jamal at 4 o'clock, in a Normal delivery, and she was just 37 weeks of her pregnancy, weighing 2280 grams.

"Although I felt a little bit of normal tension, I never felt fear with you."

Mike added, "I will always be proud of you, you are part of my family."

And The next day, Our Midwife Daniella kumsieh gave birth for her first baby, "Although I have been working here for a short period of time, I feel that I have been working in the Holy Family Hospital for a long time. I feel at home, and I feel the safety that surrounds the place and every mother.

When I learned of my pregnancy, my husband and I wanted the best for our child and to take care of her from the first day, so the decision was Holy Family Hospital, and I thank God who guided me to be part of this family and to be a mother for the first time under your care. Indeed, you are the best decision we made".

On 4/4/2023, my baby girl, "Milena", was born in normal delivery, she is in good health, weighing 2740 grams.

Daniela says, "The most beautiful feeling in life is motherhood. There is nothing comparable to these feelings. Oh my God, I share these wonderful feelings with every mother, and now the hospital staff shares these feelings with me. You deserve all the appreciation and respect for all the care and safety you provide for every mother and every child, and you have all my love."

"Wonderful job Jesus is doing through Holy Family Hospital. We thank God of having our babies delivered at Holy Family Hospital".

On 17 April 2023, Nicola's wife, Julia, one of the administrative staff, came to the hospital for the birth of her second child, where Julia says, "You were and still are the best. My experience with you 3 years ago, with the birth of my daughter, Giovanna was more than wonderful, and the medical service was more than wonderful."

meeting my baby Thalia.

"We decided to continue the check-ups in the hospital to take care of my baby, to have a healthy pregnancy, because we know that my baby will have her full right of care and safety. It was a safe period thanks to Dr. Salameh, who was present to take care of me and my baby.

"When I felt the labor pain, I went directly to the Holy Family Hospital, the place where I feel safe for the lives of my children. I was fully confident that you would be present with me with all your capabilities and excellent experiences.

I never felt afraid, the midwives were angels with their kindness and support they gave me, they were very helpful and they shared with me the most beautiful feeling of

Julia gave birth to her baby girl, Thalia, on 04/17/2023 in a Normal delivery, weighing 3650 grams

"This is the gift of the Lord to us. He sent Thalia to enlighten our lives with her sister Giovanna, and to put the hospital on our way to be our safety and our second family. You participated in achieving this joy and happiness. Thank you."

The next day, on 04/18/2023, Johnny's wife, Jovana, who is an employee of human resources, gave birth to her baby boy at Holy Family Hospital, where Jovana says that " The hospital is always our first choice and she will not have any other choice, as she fully trusts this hospital and its services".

And Jovana continued her speech that when she gave birth to her first child, Adam, three years ago, the service was wonderful and at the highest level, so she decided to return to the hospital, and she noticed that the services are developing, where there is constant attention.

On 4/18/2023, Jovana felt tired and went to the hospital, where she was suffering from high blood pressure, and the doctor had only to enter her for a cesarean section, where she gave birth to "Adrian" weighing 2.600 grams.

Johnny added, despite the concern, he did not feel fear

for his family, because he feels safe with our doctors and nurses, so he knows that he has a high level of knowledge and medical services, and they will be safe and healthy with the best staff.

"We wish you life full of HAPPINESS and GOOD LUCK"

WHAT AN HONOR!

Sofia Kidel, a patient baby star in HFH

Her mother KATYA ADLER, is a British journalist, she has been the BBC's Europe editor since 2014, reporting in possibly the most turbulent times on this continent since the Second World War, BBC Europe Editor Katya Adler has become one of the most popular and well-known of British broadcast journalists.

In 2006, she became the BBC's Middle East correspondent based out of Jerusalem, specializing in war reporting across the region.

But in 2008, she decided to give birth to her baby girl Sofia at Holy Family Hospital.

on 11th April 2023, they decided to bring Sofia to see the place of her birth, Mr. Normand The CEO welcomed them and give them a brief summary about the hospital services and give them souvenir to remember the hospital with.

APRIL VISIT

Timothy McGrath , a Benedictine monk from Glenstal Abbey in Ireland and Br Justin, also a member of the Glenstal community, but resident here for a few years as a student of all things Biblical, came to visit Holy Family Hospital .
