Monthly Deliveries

Statistics

In this New Year, on behalf of all the staff of the Holy family Hospital, I wish you our most sincere greetings for health, happiness and success, for you and for your loved ones.

Through these greetings, we also wish to show our gratitude and thank you for your commitment to us so that we can continue to serve the most deprived.

The crisis, which began on October 7, continues a little more every day. Although supplies are occurring more or less normally, the population of the governorate of Bethlehem is sinking deeper into poverty every day.

The hospital's social services are increasingly in demand because it is increasingly difficult to live on a daily basis in a city whose economy relies more than 80% on religious tourism, that do not exist anymore.

The challenges for the hospital are important and it will therefore be necessary to continue to meet growing demand and needs in 2024.

Thank you to the hospital staff who, in the current uncertainty, with professionalism and dedication, continue their mission with women and children.

Thank you also to each of you who support us in our daily mission so that Holy family Hospital can continue to offer the best care to those who come there.

Happy New Year

Baby Adan

A mother of two, when she learned of her third pregnancy, was one of the happiest moments for her and her husband to embark on a new journey.

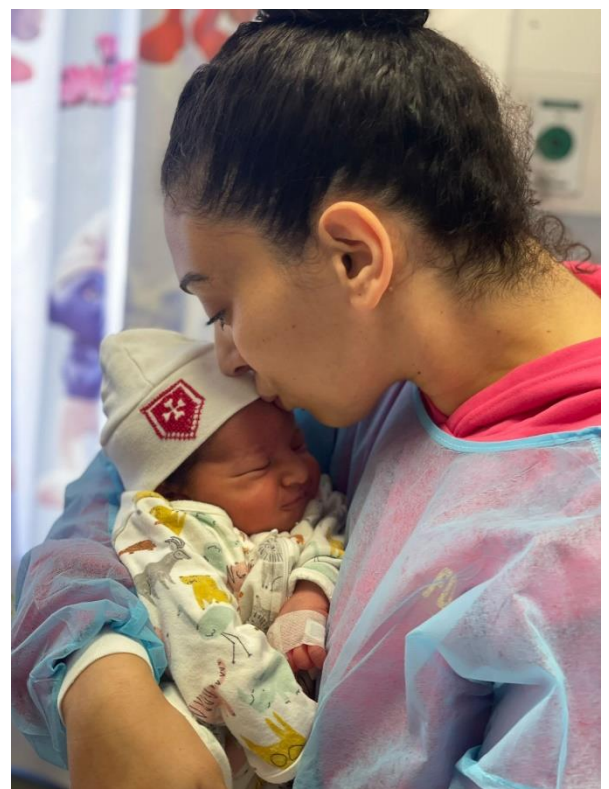

Nadin and her husband Ahmed decided to give their child the best possible care from the very first moments of his formation so they made a decision to follow up the pregnancy at the Holy Family Hospital where they always find safety and care.

When Nadin felt the labor pain, feelings of joy and stress began to creep into Nadin's heart, but the support of the medical team Help her to be comfortable and safe.

The child, Adan, was born on 1/1/2024, weighing 3750 grams, in normal delivery. Nadine describes this stage as a stage of strength and pain, forming a new chapter in the symphony of life. When she saw her child for the first time, she felt that she was part of a family that cared for her and her child.

As the mother describes "You are wonderful in taking care of children. When my child needed care for two days in the NICU, you were like angels guarding him. You have a place in my heart filled with love and gratitude".

Baby Andrew

Mariana and Elias have been married since 2017 and have three children who were previously born at Holy Family Hospital. When they learned that she was pregnant with their fourth child, the couple felt as if God had given them this gift, and so they were happy with this news despite the great responsibility they are going to have.

Knowing that Mariana was a Nurse at Holy Family Hospital for five years and gave birth to her three children at Holy Family Hospital, she knows that the best medical care she and her child will receive is in this place.

On January 4, 2024, Mariana gave birth to her son Andrew, in a normal delivery, weighing 2,375 grams. In an excellent health

Mariana says "I would like to thank my colleagues starting from the medical staff till the cleaners, whom I have always considered my second family, and thanks to the hospital that treats me with love, and I hope for continued giving. We are always proud to have you".

Baby Basil

When the doctor decided the delivery to be a caesarean section, there were moments of fear and anticipation surrounded by safety and hope that I derived from you.

When Maram felt labor pain, she went to Holy Family Hospital, and when she was examined, the doctor decided to admit her to the operating room in order to preserve the child's health.

Maram gave birth to her child, Basil, on January 20, 2024, by caesarean section, weighing 3880 grams. He was in good health and did not need treatment.

"I received

all the check-ups and delivered at Holy Family Hospital. I chose this hospital because I was sure that my baby and I will be safe and the hospital and medical team will provide us with needed medical Care".

Heavenly Father,

We thank you for the gift of life and for bringing these babies safely into this world. May you bless them and keep them, helping them to grow loving, strong and heavenly in Your love.

Amen

French Consulate Ceremony

Five months after taking office, Nicolas Kassianides made the traditional visit to the Holy Sepulcher on January 11. Rooted in history, the ceremony is the responsibility of any new Consul General of France in Jerusalem and recalls its mission of protecting Christian communities. The CEO was present at this ceremony. A status quo from 1852 set the rules of life and liturgy for each community inside the Basilica. At the request of the Ottoman Empire, France is guardian of this status quo with the three other Latin nations of Italy, Spain and Belgium, but it is the only country which has the privilege of being solemnly welcomed to the Holy Sepulcher. But France also guarantees the protection of the Holy Family hospital and the consulate ensures this precious support for Christian institutions in the Holy Land. In total, there are 40 French religious communities and 130 educational, social and hospital institutions which are supported by France. Christian schools thus welcome 18% of students enrolled in Israel and Palestine. French protection translates into direct support and an advisory role in various areas, such as problems related to real estate, taxation, etc.

Volunteering Program

Due to the current conditions, many families have lost their source of income, especially workers who work in Israel and the workers of Bethlehem District in general. The idea of the project was created to save the family. With a member of each family, instead of providing material things that they might understand, it is kind and compassionate for them is to create job opportunities for one member of each family to work 20 hours a week, 80 hours a month in exchange for a sum of money to support the family.

The program is in cooperation with the Bible Society and St. Catharina Church

They were able to employ 45 families in various institutions in the area: Bethlehem, Beit Jala, and Beit Sahour.

Welcome to the new building engineer

During Her Excellency Michele Bowe's Visit, we welcome the new building engineer Ms. Rawan Murra.

Wishing you all the best
