Last Sunday you could hear everyone saying, “He is risen, he is truly risen.”

المسيح قام ، حقاً قام

The month of March ends in apotheosis because we have just experienced a wonderful moment celebrating Easter on the Catholic calendar. Easter is the time of rebirth, a day of joy and victory. The light and life of Christ are brilliant, reflecting in abundance on each of us. Resurrected Jesus, living forever, invites everyone to hear the call of new Life.

The Holy Family Hospital experiences this situation almost every day when a patient comes to give birth in the maternity ward. Let us therefore measure the grace given to us to share on a daily basis the joy of families welcoming a new child. In the ambient uncertainty, these births are promises made for the future.

In our daily lives, which have been disrupted for several months, where confusion seems inescapable, the light of Easter morning offers us this hope. Moreover, doubly blessed is the hospital since our Orthodox brothers will celebrate Easter at the beginning of May, reminding us if necessary that this light of hope never goes out.

You just need to look into the eyes of young parents to convince yourself that birth is also a blessing when a new little light enters your life.

Happy Easter

Baby Mariam

I remember the day I found out I was pregnant with my daughter. We were very lucky to get pregnant right away, but in my mind, I thought it would take a while, so I was excited but anxious. But after taking the advice of my mother and mother-in-law to do the prenatal check ups at Holy Family Hospital, I felt relaxed because I saw the quality care that they are given to the pregnant women's and so me.

On March 2024, Tamara gave birth to her first baby girl "Mariam" weighing 2.995 kg in a goof health.

Thank you HFH for being so supportive when I was going through the most exciting yet terrifying experience of my life.
