Statistics

Learning is the foundation of all human society. Without learning, it is impossible to grow, to live together, and to develop.

Within a family, parents want this learning to be as broad as possible for their children so that they can have a better life, whatever the time.

The Holy Family Hospital is just like a family and its managers have the same consideration for its employees as parents. This is why this year the emphasis was placed on continuous education.

Let us thank Dr. Micheline kassis, Micheal Lama and Therese Khair who agreed to take up the challenge of continuous education, in order to respond to this legitimate concern of training to better care, training to better welcome.

Thank you also to the effort of each and every employee to question themselves, to learn or update their knowledge, an essential condition for providing those who come to the company with the best that the company has to offer.

HFH Visit

On Tuesday 9th April 2024, Holy Family Hospital had the Privilege to welcome the Grand Hospitaller, H.E Fra' Alessandro de Franciscis and Dr. Josef D. Blots, member of the sovereign Council.

Our CEO was happy with this beautiful Surprise and gave them a tour in which they got to see the hospital's mission in action. They were impressed by what they saw; they had the chance to meet the staff, see babies and spend a quick time in the Hospital.

HfH Staff Giving Birth

Basma Hilal, who has been working in the hospital since 2008. She Has three Sons and one daughter. As Basma expressed “in 2022, when I knew about my daughter first pregnancy, I was so happy and so sure she will be in good hands in my second

home, the Holy Family Hospital. Her Experience was more than wonderful, she was provided with the high standard medical care”. And Now Christeen wanted to give her second baby in the same place where she felt like Home.

Christeen gave birth to baby “Faris” on the 24th April 2024, weighing 3 kg in good health.

“I feel extremely thankful for my husband who Stood with me, and the midwife for her confidence and understanding of what I needed and when. Holy Family Hospital's team seemed to be there to support me and create a safe space so I could comfortably and confidently give birth to my baby.

Rawan Elayan, who has been working in the Holy Family Hospital since 2016 as a staff Nurse gave birth to her Son in 28th April 2024.

" what a blessing to be part of the holy Family Hospital's Team , yesterday I was an employee and now I am a Patient. I felt secure in a place which I am working in since 2016, it's definitely like my second home. All the medical staff stood by my side. Especially doctor Salameh Qumsieh before and during the operation. I wanted to thank all my colleagues; labor, postnatal Nursery Department they are all like sisters to me".

Ra'ad Shomali, our IT Administrator who has been working in Holy Family Hospital since 2019.

“Me and Rinan considered this baby is a miracle. We are very curious to think about what it's like to have two kids with a 9 years age gap. We have one son Daniel who is 9 years old and now baby Julia. We are sure that life will be changed trying to adjust with a newborn at home. We are very Lucky our dream to have a baby girl came true, thank god for this blessing, she came to life in this blessed Hospital where there is always a place in the inn of all”

Baby Julia Came in a good health on 2nd April 2024, and discharged back home second day.

Congratulations on the birth of your precious children , may they will be happy , and make a lifetime of incredible memories with you all.

Baby Ruslan

Dunia considered Holy Family Hospital as her second Home. The place where she gave birth to her children in 2020 and 2021. She felt safe, especially since she found someone to support her and ease the difficulty of pregnancy.

Dunia expressed her experience: "My pregnancy passed very quickly, as here I am preparing to enter the operating room, and regardless of the

fear associated with operations for most mothers, I felt comfortable and happy while entering the cesarean section, especially since the previous operation, I saw how much the medical staff cared for the pregnant woman, and this relieves the existing tension, and the moment I hear my child's voice, I forget everything around me."

Donia gave birth to her third child, Ruslan, weighing 2,700 kg on 26th April 2024. With all gratitude and joy, Donia expressed her gratitude and thanks to the medical staff who have been with her from the She was with her from the first month of pregnancy until she was discharged from the hospital with her child, and they were in good health

Baby Carla

Ghadeer our lab technologist felt labor pain while she was on duty.

Ghadeer expressed "I felt full of pride and gratitude that I am part of the family of the Holy Family Hospital and she was sure that she was with the best medical staff.

While Ghadeer held her husband's hand in the delivery room, tears began to flow from her eyes as she waited for the arrival of her baby, but she was feeling the strength she derived from the medical staff who lovingly helped her to get through Labor with a safe delivery for her

and her baby.

Ghadeer gave birth in a normal delivery to her baby Girl Carla, who was born weighing 2.880 grams on 13 April 2024, when Ghadeer put her baby on her chest, she felt waves of tenderness flooding her, and she felt deep gratitude towards the hospital and the team who helped her in the most important moments of her life.

"Thank you," Ghadeer whispered in an affected voice, "you have made this experience more comfortable and safer than I could imagine. I am proud to be a part of this wonderful team that takes care of the comfort of mothers and the safety of their children."

However, while cuddling her new baby, she was aware that she was not alone in these feelings. Every mother before and after her, every birth that took place in this hospital, felt the same pride

and gratitude towards this wonderful place that harbors thousands of new lives every year.

Thus, the baby Carla was born and left an imprint of pride and gratitude on the walls of the Holy Family Hospital, leaving Ghadir wishing that this place will always remain tall and ready to receive the new life with pride and gratitude.

**“WE NEED TO SEE EACH CHILD AS A GIFT TO BE WELCOMED, CHERISHED
AND PROTECTED”
POPE FRANCIS**

Baby Rajai

Tears of joy flowed from Sophia the moment she hugged her baby to her chest for the first time, as she had been impatiently waiting for this moment throughout her pregnancy. She cannot believe that she and her husband, Farah, will begin a new part of her life with their child, Rajai, who was born on 24th April 2024 by caesarean section, weighing 3,270 kg.

"Through my friends and family experiences, I understood that the mother was equipped with everything she could possibly need from the beginning of pregnancy until birth. My husband and I did not hesitate for a moment to start following up on it since we learned of the pregnancy, since with advice to analyze and take care of the health of the mother and the baby, my pregnancy was an easy period, as she said " I have Had a great month," which is a kind of social service for her pregnancy announcements and she looks even more grateful.

Thank you HFH! Couldn't say more than this.

Baby Eilan

Indescribable joy surrounded Eileen when she learned that she was pregnant for the second time. Eileen decided to make the best choice to care for her upcoming child as she did for her first child. She chose Holy Family Hospital to do her prenatal check-ups, she had complete confidence in their expertise and excellent care.

This wasn't the first time Eileen had relied on this hospital. When her first daughter was born, the support and care she received from the medical staff at this hospital was truly amazing. This made her feel comfortable and confident in choosing this hospital again.

When she felt labor pain Eileen headed to Holy Family Hospital to give birth to her daughter, as she described "I felt warm and calm during my labor journey. It was an unforgettable moment, I gave birth in normal delivery to my baby, Eileen, weighing 2.860 grams. Eileen says, "You knew that I had not only found a hospital to give birth to my child, but that I had found a home of safety, care, and love." My feelings went beyond words to describe. The moment I gave birth to my baby girl was magical, full of safety and security.

Not only was Eileen grateful for the wonderful medical service they provided, she was also grateful for the support of the care team who worked so hard and kept her baby safe.

Eileen continues, "After all the dedicated care I received to continue my progress, I would like to express my thanks to everyone at Holy Family

Hospital, who provided this intimate and important suffering with warmth and safety." Thanks to you, a journey with reassurance and confidence in every step of this journey. I will never forget your compassion and dedication to caring for and nurturing your children.

Thank you in my heart, because you mark this period in my memory as shining stars of love.

Heavenly Father,

We thank you for the gift of life and for bringing these babies safely into this world. May you bless them and keep them, helping them to grow loving, strong and heavenly in Your love.

Amen

The Patient Bill of Rights

Modern health care can only function when doctors and patients behave as partners. Indeed, experience and research have shown that patients who are informed and involved, and whose rights are respected, recover more quickly and have shorter stays in hospitals.

The Holy Family Hospital has been dedicated to providing quality care for all people regardless of their religion, education or culture. HFH has always shown great attention and support to the Patients'

Rights. Accordingly, a small event was organized in our hospital to celebrate the declaration of the patients' rights and responsibilities policy. The event was opened with a supportive speech by the CEO - Mr. Gilles Normand, who summarized the Patient Rights' Policy in three words: Care,

Trust and Privacy. This was followed by a lecture on this entity given by Dr. Micheline Al-Qassis, who introduced these rights and responsibilities to hospital employees. Then the event concluded with a wonderful video presented by Mr. Michel Lama.

This event received more and more attention from our staff who play the important role in the healthcare field. Many thanks to everybody who contributed to this event and special thanks to Mrs Therese Kheir, the Mistress of this event.
