Editorial A new Chapter in life

The Birth of Hope

St. Barbara

Congratulations

World premature day

Statistics

As Christmas approaches, we are reminded of the profound significance of this season especially here in Palestine. In the midst of challenges, Christmas shines as a time of renewal, of joy, and of hope, and it holds even deeper meaning in a maternity hospital, where new life and new beginnings are celebrated every day.

For families in Palestine, Christmas is more than just a holiday; it is a symbol of resilience, peace, and the enduring spirit of love. In a region marked by hardship, the birth of a child represents not only the continuation of life but the

bethlehem.org www.holyfamilyhospit al-bethlehem.org promise of a brighter future. Here at our maternity hospital, we witness this miracle firsthand, as families bring their newborns into the world amidst the backdrop of a season that celebrates hope, peace, and joy.

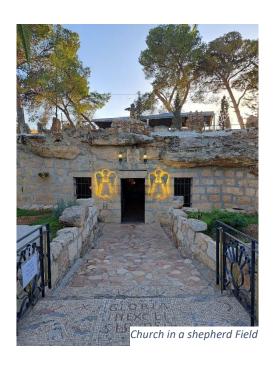

This year, as we celebrate Christmas, we are especially mindful of the families we serve expectant mothers, new parents, and newborns—all of whom are part of a greater story of strength and perseverance. The birth of a child in any context is an occasion of immense joy, but in Palestine, it also

symbolizes hope for a better tomorrow. It is a reminder that despite the difficulties, life continues, and with each new birth, there is a renewed sense of possibility.

For many of our patients, Christmas brings not just the arrival of a baby but the comfort of knowing that they are cared for, supported, and surrounded by compassion. The holiday season, with its spirit of giving, reminds us all of the importance of kindness, empathy, and community—values that are at the heart of our mission here in the maternity ward. Whether it's a word of encouragement, a gentle touch, or a shared moment of joy, these small acts make a world of difference in the lives of our patients and their families.

As we celebrate this Christmas, let us remember the families who are welcoming new lives into the world. Let us honor the strength of mothers, the joy of new beginnings, and the enduring power of hope. May this Christmas be a time for reflection, for gratitude, and for the continued work of healing and caring for one another.

Wishing all our patients, staff, and their families a Merry Christmas filled with peace, love, and new beginnings.

A New Chapter in Life

On the morning of December 5, 2024, Bayan arrived at Holy Family Hospital, where the staff greeted her with kindness and care. "The entire hospital team felt like family," Bayan recalls. "They made me feel safe and supported, helping me stay calm even with the natural fear that comes with labor."

As the hours passed, the birth became imminent. The team's expertise and compassionate care ensured everything was on track. Finally, baby Rima was born, weighing 3000 grams. Her first cry filled the room, bringing instant joy to her parents. In that moment, Bayan and Tarek knew their new chapter had begun, filled with love and hope, thanks to the medical team's dedication.

"In moments of fear, hope shows up in its purest form when you find people who support you with both kindness and professionalism," the couple reflects. "The birth experience wasn't just a medical

event; it was a new story beginning with the care of doctors and nurses who gave us hope."

Bayan and Tarek's lives were now full of new challenges, but also overflowing with joy. Every moment with Rima reminded them that life, though challenging, is beautiful, and love makes every step worthwhile.

And so, the small family began their new adventure, surrounded by rays of joy and hope, ready to write new chapters of happiness and success.

Such a Wonderful message to Receive from Bayan to Our Midwife Narjes Alan" Thank you for being there for me, for listening to my concerns, and for guiding me every step of the way. I felt safe and cared for in your hands, and I will always be thankful for the comfort and reassurance you gave me.

You are truly a special person, and I'm so grateful to have had you as my midwife".

The Birth of Hope

"And She will Bear a Son; and you shall call his name Jesus, for it is he who will save his people from their sins" Mathew 1:21

Having a baby on Christmas Season can be both a joyous time and special Blessing for us. This Christmas, with the bad situation sweeping the world, there may also be some unique considerations on parents' minds

On Christmas night, December 25, 2024, 12:27 AM, the small family welcomed their first born, Layla. She entered the world weighing 3.200 kilograms, in an excellent health,

thanks to God's care and the perfect preparations made by the hospital team. The birth was a C-section, and Hadeel was fully prepared; thanks to the exceptional medical support she received.

As she gazed at her newborn, the father expressed his feelings, saying, "We are now a happy family," expressing his deep gratitude to everyone who contributed to this joyful moment.

Hadeel says, "At the Holy Family Hospital, it's not just bodies that are born, but stories of hope and life. Here, care extends beyond medicine to embrace the heart and soul, making every birth the beginning of a new hope."

With the birth of Layla, a new journey began for this family, filled with dreams and hopes. Every moment with their baby was a reflection of the beauty of life and the motherhood journey, where love was the language spoken by them all. This small family is not just a family; it is the embodiment of hope and love, with every moment offering a new promise of a brighter future.

St. Barbara's Day

Saint Barbara was persecuted in the 3rd century because she believed in Jesus. The general belief among Middle Eastern Christians is that Saint Barbara disguised herself in many different characters to escape the Romans who were persecuting her. While fleeing from the Romans, Barbara supposedly also ran through a freshly planted wheat field, which grew instantly behind her to magically cover her path. This miracle is recreated symbolically today by planting wheat seeds (or chick peas, barley grains, beans, lentils) in little pots. The seeds germinate and grow quickly to around 6 inches in time for Christmas. Then the shoots are used to decorate the nativity scene usually placed below

the Christmas tree. I remember my great Aunt Bahia used to do this every year, and I would marvel at the plants as a child, helping her water the grasses and watching them grow so quickly.

Saint Barbara's Day is celebrated in the Holy Land on December 4 of each year. The traditional food for the occasion is Barbara, a bowl of boiled barely, pomegranate seeds, raisins, anise and sugar. Walnuts and the almonds can be added. Families meet together on this day to celebrate and Holy Family Hospital's team also celebrates this day together were joy and love are spread among the team and the mothers inside the Hospital.

- Ingredients (about 20 servings)
 - 2 cups wheat berries
 - 3 sticks of cinnamon
 - 1 tbs of ground anise seeds (optional)
 - ½ cup golden raisins
 - 10 cups of water
 - 1/4 cup of honey, sugar or brown sugar (adjust to your taste)
 - Toppings:
 - chopped walnuts
 - ground chickpeas
 - chopped Almonds
 - Pomegranate seeds
 - Coconut

Mini chocolate chips (these melt nicely in the warm porridge) $\ensuremath{\overline{\psi}}$

Place wheat berries and cinnamon sticks, and anise in a large pot. Add the water. Set over high heat to boil. Once boiling, reduce heat and simmer until the water starts to evaporate. About 20 minutes into simmering time, add the sugar and the raisins. Continue simmering for another 20 minutes or so depending on how soupy or dry you like it. Traditionally, the consistency should resemble that of hot porridge. Serve hot with almonds, walnuts, coconut, pomegranate seeds and any other topping you wish.

Spreading the joy of Christmas

The team of the Holy Family Hospital's Administration replaced our annual Christmas dinner party by distributing Christmas cookies, which drew a nice smile among the staff and was highly appreciated.

S

Christmas Spirit

To maintain our yearly tradition, and in the perspective of spreading the joy and love within the patients surrounding us and the team of Holy Family Hospital on the 25th December marking the birth of our Saviour, gifts were distributed to the mothers and babies.

We succeeded in making 25 December unforgettable day

A Safe Journey to New life

"Everything we needed was here," they described their experience, emphasizing that the sense of safety and comfort during this sensitive time was the greatest support they could have had.

On the morning of December 24, 2024, after a long wait, their little girl, Vitalia, was born weighing 3.340 kilograms. The delivery was normal and went smoothly, thanks to the skilled care of the doctors. The moment Victoria held her baby in her arms, she felt that her life was complete mix of happiness and gratitude that words could not fully express. "We are safe with you," was the phrase William used to describe their experience with the hospital, a reflection of the trust and gratitude they felt toward everyone who was part of their journey.

Baby Zain

Mario and Loris dream of having a family grew with each pregnancy. After the birth of their daughter Maria via cesarean section in 2022, they were overjoyed to learn of their second pregnancy. Loris, who had followed part of her pregnancy at the Holy Family Hospital, hoped for a natural birth. On December 22, 2024, Loris was admitted to the hospital, and with the medical team's help, she successfully delivered their son Zain naturally on March 24, 2024, weighing 3.180 kilograms and in

good health. The experience was joyful for the family, and both Loris and Mario expressed their gratitude for the support they received during the birth.

Baby Christian

The family was overjoyed after the birth of their third child. Miriam gave birth to her son

Christian on December 18, 2024, weighing 3730 grams. Miriam shared her experience, saying: "I began my follow-up at the hospital when I learned I was pregnant. The doctor was amazing and helped me get through the pregnancy easily. It was a comfortable period filled with rest and joy. Despite the stress of labor, the medical team was very calming, which eased my anxiety and made my delivery smoother, allowing me to hold my healthy baby in the end."

Samir added with gratitude: "I felt reassured. Despite everything, I was confident that both my wife and baby would be fine. I was present during the birth and saw the efforts of the medical team with my wife. They were supportive, calm, and compassionate,

helping Miriam with kindness and love. They were the best doctors and midwives with us. We truly appreciate all our moments at the hospital, as it's always our second home, and the entire team is our second family. In the end, we thank you all."

Medical Seminar

The Holy Family Hospital, in collaboration with Dar Al-Shuyukh, and Wings of Hope Foundation, held an educational medical seminar on menopause. Dr. Zahra Sharabaty & Dr. Bashar Rishmawi; an obstetricians and gynecologists, provided a comprehensive overview of the symptoms and challenges associated with menopause, as well as how to manage them. They also highlighted critical symptoms that require medical intervention and emphasized the importance of regular

check-ups and follow-ups to help women navigate this phase with comfort, confidence, and happiness.

At the conclusion, an overview of the services offered at the menopause clinic was provided, and the floor was opened for medical consultations.

The changes associated with menopause can affect a woman's health and lifestyle.

Therefore, care in the period leading up to this phase plays an important role in enhancing health and quality of life.
